

# Press release 17 September 2024

### Impact on Sustainable Aviation and PACE sign membership agreement

The non-profit association Impact on Sustainable Aviation e.V. (IMPACT) is pleased to welcome PACE as a new member further enhancing the breadth of its stakeholder network.

IMPACT is dedicated to delivering cross-industry collaboration for a sustainable future of aviation. Through connecting industry stakeholders, educating its members, enabling decarbonization technologies and standardizing sustainable finance frameworks IMPACT supports the industry's Net Zero 2050 goal.

**Ulrike Ziegler**, Chair - IMPACT Board of Directors, emphasizes the importance of cooperation: "We are excited about PACE's decision to join IMPACT. We have succeeded in uniting different stakeholders under the IMPACT umbrella ranging from financing, investment, asset management, data providers to consultancies and academia. Our members appreciate the joint effort to aid sustainability in aviation and to jointly develop solutions. We look forward to working and exchanging ideas with PACE and are confident that the broad impact membership can make an important contribution to achieving Net Zero."

#### **PACE Response on Joining IMPACT**

Cathal Foley, CEO, PACE commented, "We at PACE are thrilled to join IMPACT and contribute to its mission of fostering cross-industry collaboration for a sustainable future in aviation. By connecting with diverse stakeholders and leveraging innovative decarbonization technologies, we are committed to supporting the industry's Net Zero 2050 goal. We look forward to working closely with IMPACT and its members to develop and implement solutions that will drive meaningful progress in reducing CO2 emissions in civil aviation."

#### About impact on Sustainable Aviation e.V.:

impact on sustainable aviation e.V. ("impact") was founded in 2022 as a non-profit association. Impact pursues the purpose of promoting climate protection in the field of civil aviation and will support those involved in the civil aviation industry in contributing to the effective reduction of  $CO_2$  emissions in civil aviation in line with the Paris climate protection goals in a sustainable manner and within the framework of a competitive economic order. The business activities of the members range from the provision of equity or debt capital or the structuring of financing, investments and/or leasing models for airlines and aviation infrastructure operators (in particular banks, leasing companies, insurance companies, pension funds, investment funds and aviation asset management companies) to providing data and research in the field of aviation.

#### **About PACE**

PACE is a digital platform driving carbon emissions analysis and strategy in the Aviation sector by providing customers access to independent data on the entire global aircraft fleet. PACE translates

this information to enable customer decision-making across multiple data points including financier, airline operator, and individual aircraft type. The PACE team works closely with customers to ensure regulatory changes are understood and carbon risk exposures caused by mandated ESG targets can be managed. As an independently benchmarked platform PACE is leading the way in supporting business opportunities unlocked through improved ESG performance in sustainability-linked finance. For more about PACE visit www.pace-esg.com
