

# IMPACT Forum - 12.2024

## Principles of Sustainable Aviation Financing

impact  
ON SUSTAINABLE AVIATION

**Time flies.**

# Principle 1: Promote aviation sustainability measurement, reporting and communication

-  **Develop Measurement Methodology:** Underpin aviation with transparent, uniform and greewashing-proof sustainability KPIs for loans and lease contracts
-  **Guidance Document:** Draft guidelines for stakeholder discussions
-  **Engage Policymakers & Auditors:** Collaborate with authorities and auditors for accurate and standardised disclosures
-  **Broad Communication:** Communicate results to all aviation stakeholders

## Principle 2: Embed Sustainability into Aviation Finance and Leasing

**Evaluate Metrics:** Assess existing sustainability metrics for relevance (impactfulness & completeness) in finance

**Strategic Integration:** Translate sustainability metrics into strategic business objectives which enhance current practices

**Collaborate for Standards:** Work with peers and standard setters to unify practices for clearer reporting

**Legal Framework:** Establish legal structures supporting sustainability

**Enhance Credibility:** Strengthen governance for sustainable financial products

## Principle 3: Quantify Climate Risk in Aviation

**Capital Impact Assessment:** Measure capital accessibility's effect on aviation

**Transition Risk Impact:** Assess how asset values are affected by transition risks

**Macro Effects of Decarbonization:** Explore economic implications of aviation failing to decarbonize

**Regulatory Response:** Identify regulatory impacts on abrupt transitions and mitigation strategies

## Principle 4: Make long-term disruptive aviation investments bankable

**Technology Assessment:** Evaluate decarbonization technology and identify gaps

**Financial Risk Sharing:** Develop appropriate blended finance tools for aviation

**International Cooperation:** Build platforms for sharing best practices and advance policies to ascertain financeability

**Actionable Priorities to 2030:** Define priorities to close technology and investability gaps

**Harmonize Stakeholder Activities:** Align efforts across think tanks and NGOs

**Impact on Sustainable Aviation e.V.**

Berliner Str. 72

60311 Frankfurt am Main
