

# David Gazdag

Regional Representative Europe at VERRA

5:15 – 6:05 pm Panel “Challenges and opportunities around nature-based voluntary carbon offsets”

David Gazdag is the Regional Representative of Europe at Verra. Before joining Verra, David had two decades of global climate market experience - covering project and policy development, validation, and verification – with recent insight into EU nature-based VCS projects.

His expertise includes ecosystem services evaluation, and as an MD initially, he has a good understanding of the health and social aspects of climate change and its mitigation activities.
